

Project Management for Water Modelling Contracts

"Project Management for Modelling Contracts" was very beneficial for me. It was methodical, logical and helpful to both modeller and non-modeller alike. I took the concepts back to work and applied them immediately!

Ailsa Willis
Lower Murray Water, Victoria

Course Details

This course is aimed at engineers who manage internal or external modellers.

Do you want to know all the key steps to ensure the successful completion of water modelling projects?

Are you concerned that projects are over-time, over-budget and still do not clearly meet your needs or give a clear direction of what to do next?

This course is designed to step through all key elements in procuring and completing projects that require hydraulic models. Elements will include:

- Designing a specification
- Knowing what software tools should be used
- Developing "line-in-the-sand" objectives for consultants to follow
- Determining data requirements
- Understanding what's achievable with today's technology
- Creating a Peer Review structure

Who Should Attend

Project team leaders
Asset Managers
Technical managers
Modelling engineers

Each course will satisfy at least 3 core competency standards for IPENZ Continuing Professional Development

Course Leader

Dr Steven Joynes

Steven has 26 years experience in developing, utilising and managing water modelling projects. Starting Hydraulic Modelling Services Ltd in 1992 this company has now serviced over 20 local and regional councils in New Zealand as well as numerous civil engineering and surveying companies.

He was the inaugural chairman of the Modelling Special Interest Group within Water New Zealand for 2 years.

Selling his business in 2005 he has set up Golovin in 2008. This company is dedicated to best-practice methods in water modelling which includes the development of the Modelling Policy Statement, peer review structures and training programmes.

Steven attends numerous conferences and seminars throughout New Zealand and Australia as both a speaker and to keep abreast of new developments.
