Course Leader

Dr John Bradd

Hydro-geologist

John has a PhD in hydrogeology and groundwater management, with 30 years' experience in hydrogeology and groundwater investigations. He has extensive experience in directing, managing and conducting groundwater, environmental investigations and water resource management projects in Australia and South East Asia. John's industry experience extends across federal research and state regulatory organisations, private consulting firms and tertiary education and research institutions. John currently is employed by GHD and works within the Sydney Contamination and Environmental Management Team

Dr Steven Joynes

Course coordinator and civil engineer

Steven has 36 years of experience in developing, utilising and managing water modelling projects. He has been running water-based training courses for the past 11 years with over 500 attendees. This is his 4th groundwater course.

Steven attends numerous conferences and seminars throughout New Zealand and Australia as both a speaker and to keep abreast of new developments
